SUMMARY

BCA graduate with hands-on full-stack web development experience through 6 months of MERN Stack industrial training and multiple self-built projects. Proficient in React.js, Node.js, Express.js, MongoDB, JavaScript, HTML5, CSS3, and RESTful API design. Currently building a production ecommerce platform for a live client, including payment integration and deployment.

Skills

- Technologies: React.js, Node.js, Express.js, HTML5, CSS3
- Database: MongoDB, Basic SQL
- Languages: JavaScript, Basic Python
- Tools: Git, Postman
- Networking & Security: Kali Linux, QRadar, Wireshark

TECHNICAL EXPERIENCE

MERN Stack Developer Trainee, *EuphoriaGenx*

08/2024 – 02/2025

- Completed structured 6-month MERN stack industrial training covering MongoDB, Express.js, React, and Node.js through instructor-led modules and project work.
- Built and delivered 1 full-stack web application and collaborated in team settings using Git, Postman, and code reviews.

PROJECTS

Tovar – B2C Ecommerce Platform, *MERN Stack, Cloudinary, Razorpay*

06/2026 – Present

- Building a production ecommerce platform for a live garment client with a complete backend, admin panel, and product data flow; cart, checkout, and Razorpay integration in progress

Between Two - AI Decision Coach 🗒, *React, Express.js, Groq AI*

- Built an AI-powered app that helps users decide between two options through five guided questions separating logical and emotional reasoning, using Groq's LLaMA 3.3 70B model to generate a confidence score and recommendation.

TimeCapsule - Digital Memory Capsule 🗒, *Mern Stack*

- Developed a full-stack journaling application with JWT authentication, time-locked notes, automated email reminders, and a responsive dashboard using the MERN stack.

Readora - Reading List Manager 🗒, *MERN Stack*

- Developed a full-stack reading list management application with CRUD functionality, allowing users to organize books and update reading progress through a responsive React interface.

Grocery - Online Grocery Shopping Platform 🗒, *MERN Stack*

- Built a full-stack grocery shopping application with product browsing, cart management, and RESTful APIs, featuring a responsive React interface and MongoDB data storage.

VibeCheck - Interactive Personality Quiz 🗒, *HTML, CSS, JavaScript*

- Built an interactive personality quiz with dynamic UI transitions and real-time response handling using vanilla JavaScript, no framework.

QR Code-Based Attendance System, *Python Flask*

- Designed and deployed a contactless QR code attendance system using Python Flask, enabling real-time student and guest check-ins with dynamic forms and record tracking.

EDUCATION

BCA - Bachelor In Computer Application, *Nimas-George Group of Colleges*

08/2022 – 07/2025

CGPA:7.64

Higher Secondary Education, *Dumdum Road GOVT. SPONS. High school*

Percentage:80%

Madhyamik (Secondary Education), *Sree Ramkrishna Sarada Sangha Balika Vidyalaya*

Percentage:66%

Interests

- Reading fiction across genres — I use it to build structured thinking and broaden my perspective.
